What is this about?

Based on your feedback in 2019, our analysis, and a wide range of considerations, we've developed a five-year plan for Turlock Transit.

Ultimately, the goal is to build on our vision: financial and environmental sustainability, excellence in service, and innovation.

The plan's strategies include:

- Service that ends later on routes 1, 2, and 5, and service that ends earlier on routes 3, 4, and 6
- New service to the library and Orange St
- A more financially sustainable fare model including possible fare increases
- A new website for Turlock Transit
- Buses that come on time more often
- Moving toward an electric fleet
